Global Learning for Operational Leaders

Course content

Why Attend

Governance is a critical topic that has been attracting serious attention for two decades in business schools and among legislatures, with this trend only increasing. While there are different types of regulators, they all aim to govern and deal with stakeholders. This course covers regulators' independence, decision-making, accountability, inspection and audit, and monitoring and enforcing regulations. It also explains the different types of regulators and different regulators' structures and authorities. Other topics discussed are the role of regulators and the required transparency.

Course Methodology

• The course is built on presentations by the instructor and the participants and includes exercises and case studies to be discussed during the course.

Course Objectives

• Explain the different types of regulators and the regulators' principles

• Examine the independence of different regulators

• Appraise decision-making and accountability practices by regulators

• Evaluate transparency and efficiency of regulators

• Support monitoring and enforcement of regulations

Target Audience

• Board members, chief financial officers, senior management, directors, finance managers, financial controllers, accounting and finance personnel, legal counsel, corporate legal advisors, corporate secretaries, lawyers, external and internal auditors, HR managers, and department heads. All employees and managers of regulators like capital market authorities, central banks and other governmental and non-governmental authorities and agencies.

• Target Competencies

• Structuring of regulators

• Analyzing regulator efficiency
