Course content

Why Attend

This course covers several activities that are practiced by financial controllers, from preparing and reviewing financial statements, analyzing an organization's financial health and performance, and administering the budget process and control function, to managing staff performance and enhancing their productivity. This course provides professionals the chance to practice these responsibilities and sharpen the necessary skills.

Course Methodology

- This course focuses on exercises, case studies, Excel workshops, and individual and group presentations.

Course Objectives

- Identify the main responsibilities handled by financial controllers
- Describe the different financial statements used in their organizations
- Analyze company performance highlighting impact of current operations on future financial results
- Evaluate and present company budgets and assist management in selecting proper plans
- Practice some of the key skills required using Excel to boost the efficiency of accounting and finance work
- Assess internal controls within the finance department and the organization in general

Target Audience

- Financial controllers, chief accountants, finance or accounting managers, supervisors, staff accountants, general ledger accountants and any professional in accounting and finance who wish to upgrade their skills as well as prepare themselves to assume the responsibilities of a financial controller.
- Target Competencies
- Financial accounting and reporting
- Financial statements analysis
