Course content

Why Attend

INTRODUCTION

Local Content is the development of local skills, oil and gas technology transfer, and use of local manpower and local manufacturing.

Course Methodology

Course Objectives

- This training course will enhance your ability to identify, determine and manage local content strategies in the oil and gas business.
- It will boost your skills in mastering the implications of local content provisions over the execution of an oil field development project, mainly in terms of procurement and personnel management.
- At the end of this Local Content Management in the Oil and Gas Industry training course, you will learn to:
- Identify the key-factors in the local content provisions applicable to a given contractual context, and assess their impact over the execution of an oil field development project
- Participate in the development and implementing of local content strategy and execution of a local content management plan, take part in a procurement contract tendering, negotiation and follow-up, take into account the impacts of local provisions on workforce management
- Manage local content regulations and requirements in key oil and gas producing nations around the world
