Course content

Why Attend

This Operational Excellence in Crisis Management and Contingency Planning training course shall effectively help the organisation to develop a standard methodology for organizing, drafting and implementing emergency preparedness and contingency plans.

The course was prepared to ensure that all delegates will gain the best practices in developing, assessing and determining consequences of contingency plans, and helps participants identify the most common weaknesses found in many crisis management plans.

Course Methodology

Course Objectives

- This course helps participants identify potential risks or situations that may precipitate a crisis or emergency and learn approaches on how to respond to such incidents.
- The Course is to enable students to understand and apply the principles of emergency response planning and crisis management. It considers the need for emergency and crisis response planning and an integrated approach to emergency management. It is mainly To plan and prepare for effective Emergency Response Plans (ERP) that mitigates the potential consequences of an Incident to people (local community and personnel), environment, assets and reputation, and enables normal operations to be resumed efficiently.
- By the end of This Operational Excellence in Crisis Management and Contingency Planning training course, participants will be able to:
 - Define crisis management
 - Describe the stages of a crisis
 - Apply best practice in putting crisis management into action

Target Audience

- This Operational Excellence in Crisis Management and Contingency Planning training course is suitable for a wide range of professionals at both senior and middle level of management, and who are involved in any aspect of Crisis and Risk Management and who want to understand, implement and improve the latest Risk and Resilience Management concepts, processes and ideas at both strategic and operational levels.
- This Operational Excellence in Crisis Management and Contingency Planning training course is suitable to a wide range of professionals but will greatly benefit:

- Incident Commander and deputies
- Safety & Security Management Team Members
